---

## Project Work: -

### ***E-Commerce website:***

Developed a dynamic e-commerce website using React.js and Redux, ensuring efficient state management and a seamless user experience.

- **Shopping Cart:** Developed a robust shopping cart system allowing users to add, remove, and update product quantities with real-time price calculations.
- **Responsive Design:** Utilized CSS to create a fully responsive and visually appealing design, ensuring optimal performance across various devices and screen sizes.
- **User Authentication:** Integrated secure user authentication and authorization enabling user registration, login, and profile management.
- **Link:**

### ***Portfolio Website:***

Developed a professional portfolio website to showcase my skills, projects, and experience. The site serves as an online resume.

- **Home Page:** Designed an engaging home page with a concise introduction, highlighting my professional background.
- **Projects Section:** Created a detailed projects section, showcasing my work with descriptions, technologies used.
- **Contact Form:** Implemented a contact form with form validation and email integration, allowing visitors to reach out directly through the website.
- **Link:**
